LUMINA TERRA

A Rounded Education

PROSPECTUS

2025-26

EXCLUSIVE. INNOVATIVE. SUSTAINABLE.

Welcome to LUMINA TERRA

School of Nations

Where Children are the Light of the Earth

Lumina Terra, School of Nations

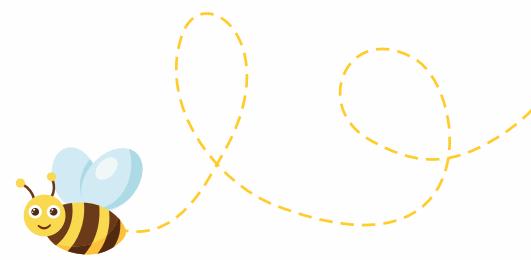

is not just a school, it's a vibrant, sustainable, and globally inspired learning community where your child's journey is rooted in the earth and reaches for the stars. Here, every child is seen, heard, and valued, and every day is an invitation to wonder, create, and grow.

Lumina Terra School of Nations

offers your child a truly rounded education, one that is joyful, advanced, and deeply human. Here, children become not just exam-ready, but life-ready: confident, creative, compassionate, and prepared to shine anywhere in the world.

Ready to see your child shine?

Join us at Lumina Terra, where every child is the radiant light born of the Earth.

What Makes Our Program So Enriching?

Every child is known, valued, and celebrated.

Priya Chhatrawal

Principal, Junior Wing
Former Cambridge Educator

“At Lumina Terra, we believe in nurturing both the inner and outer potential of every child. Through a balanced approach, children explore the world with their senses while growing intellectually, emotionally, and creatively. Learning is not about memorizing facts, but about discovering patterns, solving real-world problems, and expressing themselves through our exclusive pedagogy.

Our mixed-age classrooms nurture collaboration, mentorship, and leadership, creating a vibrant community. The circular yurts symbolize our commitment to endless opportunities and freedom to grow.

At Lumina Terra, we don't mould children, we awaken their unique potential, guide them to shine in their own beautiful way. **Education here is not just preparation for life, it is life itself. ”**

A Rounded Education

At Lumina Terra, we believe that every child is the light of the Earth!

Our approach to education goes beyond academics , it is a deep and intentional journey of nurturing the whole child. Through our unique Rounded Education, we support the development of the mind, body, spirit, and heart, creating a strong foundation for lifelong learning and purposeful living.

We carefully cultivate both Inner Powers such as intellect, imagination, memory, comprehension, and reflective thought, as well as the Outer Powers which are the five senses through which we experience and engage with the world. This balanced, joyful approach empowers children to think deeply, feel deeply, and connect meaningfully with themselves and others. At Lumina Terra, learning is not just about what a child knows, it is about who they become.

advocate and educator

The Stages of Growth at Lumina Terra

Our program is designed around distinct developmental stages, each with a unique identity, learning approach, and set of experiences.

Here's how your child will progress:

Stage Name	Indicative Age Range	Light Journey
 Glow	3 & Under	The first glimmer of being is the inner light awakening with wonder and presence
 Spark	4-5	Emergence of vibrant curiosity where light begins to play, explore & connect
 Ray	6-7	Light takes direction when curiosity sharpens & ideas begin to take form
 Beam	8-9	Expression deepens when thoughts become focused and expansive
 Flare	10-11	Bold identity forms when light grows unique, creative, & the child is self-aware
 Nova	12-13	Transformation ignites the light, explores depth, and expands
 Orbit	14-15	Growing influence is when light engages & orbits with expanding insights
 Cosmos	16-17	Vibrant radiance emerges and light integrates and illuminates the world

Advancing learners beyond their grade level

Advancement through knowledge

Core skills in Math, Language and Environmental Sciences are built through adaptive, AI-powered learning. Children progress at their own pace with support and challenge, often advancing up to two grades ahead.

Small Groups, Big Support

Teachers know every child deeply, offering targeted and personalised feedback and encouragement.

Mastery Before Moving On

Children only advance when they've truly mastered a concept, ensuring deep understanding and confidence.

Integrated, Thematic Learning

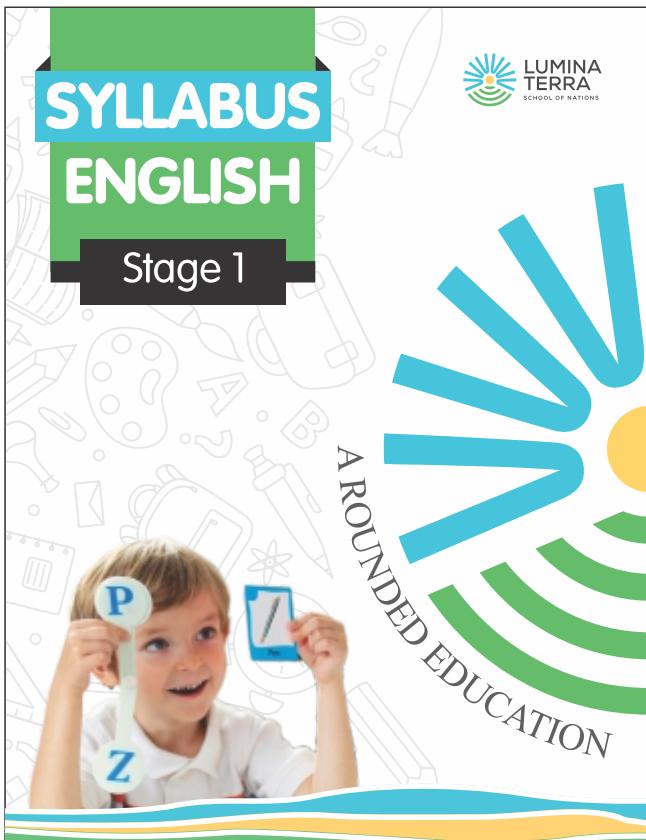

Subjects are connected through real-world projects, inquiry, and exploration, making learning meaningful and memorable.

Ongoing Assessment & Reflection

Progress is monitored through portfolios, projects and continuous teacher feedback rather than solely relying on tests.

What Sets Us Apart

Teacher Led Story Reading

Table of Contents

LUMINA TERRA SCHOOL OF NATIONS

A ROUNDED EDUCATION

Tina: The king lives in a big castle.
Toto: He has a pet kangaroo.
Tina: The king sits on kangaroo's back.

Where does the king live? → In a big castle. (Make a house shape with your hands.)

Split into two teams, Tina and Toto. One team will ask the questions, and the other team will answer them and do the actions. Reverse roles.

Make a crown out of paper and decorate it. Wear it in class the next day.

Rolling admissions as we focus on stages not ages

Up to two grades ahead, naturally

Small classes, big attention

Lighter bags, most materials kept at school

New skills and talents, every day

Kindness, empathy, and honesty

Rooted in tradition, driven by the latest

AI & technology, integrated thoughtfully

The Saturday Skill Development Program

Every Saturday at Lumina Terra is a celebration of skills, creativity, and community. Our program is designed to

nurture the whole child, mind, body, and spirit, through hands-on, joyful, and practical experiences.

Saturday Activities

How we Compare to the Best in the World

- **Singapore**

Like Singapore, we ensure strong Math and Science foundations, but add creativity and well-being.

- **Finland**

Like Finland, we minimize rote testing, emphasize on understanding, focus on happiness and inclusion.

- **Norway**

Like Norway, we value equity, multilingualism, and critical thinking.

- **IB**

Like IB, we foster inquiry, global citizenship, and interdisciplinary projects.

- **American & International**

We offer STEAM, entrepreneurship, and leadership, preparing children for a global future.

How is Lumina Terra Different?

Compared to Other Schools

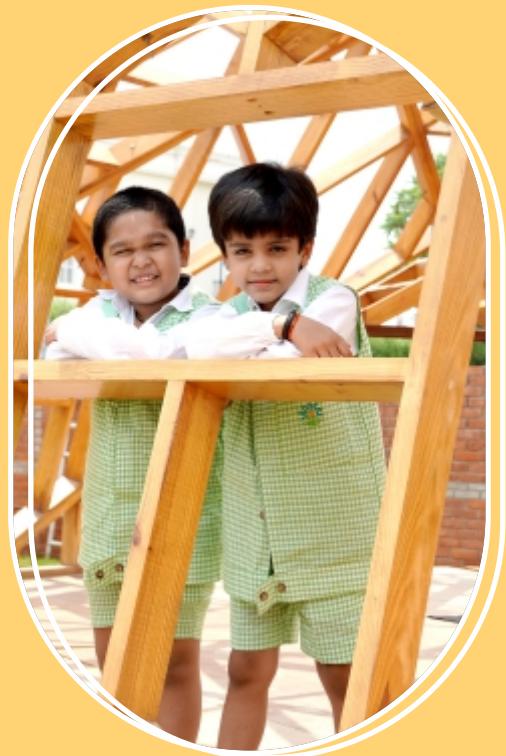

Personalized, Mastery-Based Learning

Each child learns uniquely with adaptive tech and expert guidance, unlike one-size-fits-all models.

No Heavy Bags, No Rote Learning

Learning is hands-on, joyful, and deeply engaging—children look forward to coming to school.

Sustainability & Nature

Our campus is a living classroom, with outdoor learning, gardening, & eco-projects woven into daily life.

Holistic Education

Academics, arts, life skills, social-emotional growth, and global citizenship are all valued equally.

Assessment for Growth

Progress is measured through meaningful projects, portfolios, and personal reflection, not just exams.

Global Best Practices

We draw from Singapore's Math mastery, Finland's play and well-being focus, Norway's inclusion, and IB's inquiry.

Yurt-Shaped Classrooms

A unique, circular design fostering collaboration, creativity, and a strong sense of community with natural light and eco-friendly materials.

The Lumina Terra Nest

MOTHER-TODDLERS

(Play, grow, and unwind)

The Lumina Terra Nest is a special mother-child program designed to bring you and your toddler together in joyful, shared activities that deepen your emotional bond while supporting your child's early language, motor, and cognitive skills.

Learning here happens through play, puppets, music, and movement, creating a warm space where your toddler grows beyond bounds. You can carry on with these activities at home.

LT Happy Hours

After-School Enrichment Program (1 to 6 pm)

At Lumina Terra, learning extends beyond the classroom. Our Happy Hours program has been thoughtfully curated, designed to

help children enhance their talents and excel in extracurricular pursuits, nurturing creativity, expression, and well-being.

Children can explore:

Spanish as a second language

Early language learning builds global awareness and cognitive skills. Children absorb Spanish through fun, immersive activities like songs, stories, and games.

Art & Craft

Hands-on creativity fuels imagination and self-expression. Through a variety of materials and techniques, children explore their artistic instincts with joy.

Yoga & Mindfulness

Early language learning builds global awareness and cognitive skills. Children absorb Spanish through fun, immersive activities like songs, stories, and games.

Instrumental Music

From rhythm to melody, music sessions help children develop focus, discipline, and a deep appreciation for sound and performance.

Whether it's language, movement, art, or music — Happy Hours program is a joyful time for children to explore their passions,

build confidence, and grow beyond academics in a nurturing, supportive environment.

LT Moments

A Joyful Two-Hour Experience for Young Explorers

At Lumina Terra, we believe in creating meaningful moments of joy, learning, and creativity, even beyond regular school hours. LT Moments is a special two-hour drop-in program where children engage in thoughtfully curated activities designed to spark imagination and nurture their inner and outer growth.

While parents take time for themselves, children enjoy a safe, nurturing space filled with:

Whether it's a one-time visit or a weekly ritual, LT Moments is where children thrive through play, connection, and joyful discovery.

Let your child experience the magic of Lumina Terra, even if it is for a moment.

Every Child is a Story Creator

At Lumina Terra, we believe every child holds a world of imagination waiting to unfold.

With the AI-assisted LT Story Creator App, children can turn ideas into stories, from magical adventures to real-life moments, developing their voice and creative thinking.

They can write, illustrate, and build a personal digital library of original works, while sharing stories with loved ones to gain encouragement and confidence.

Integrated into our curriculum, the app nurtures creativity, language, and independent expression from an early age.
